

In reference to MB Docket # 04-233  
I want to tell you I am one of  
many people in my immediate  
area that listen to K-LOVE. I  
believe the service provided by K-LOVE  
is very much needed in my area and to  
have it replaced by an LPFM would  
be a detriment to my community.  
K-LOVE is a ministry that might be the  
only hope some people hear all week.

Thank you - Barb Vaughn

To whom it may concern-  
My family of small children,  
teen ages & adults are  
avid listeners & supporters  
of K-LOVE. We are born again  
Christians who feel this  
is very beneficial in our  
Christian walk & daily  
lives to be able to tune  
into K-love's family  
friendly broadcasting.

If K-LOVE were not  
available in our area  
many teens would listen  
to non-Christian Rock & Roll

which prevent death,  
drugs & a life style  
which results in death.  
Please for the sake of  
Arkansas' young people-  
continue K-Love FM  
broadcasting in our  
area! This is one of  
the only positive,  
wholesome influences  
some teenagers have  
in their lives right  
now.

## Persons at FCC

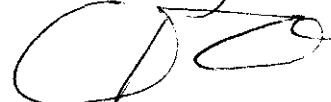

I am writing in reference to MB Docket No 04-233 regarding KLOVE Radio stations.

Because I am in prison away from my family, a common radio station provides me + my wife + son to stay connected. Moreo, klove provides encouraging music + words and during this tumultuous season in our lives we really need that shared hope.

I can't begin to think of the negative ramifications if klove were removed ~~or~~ or overridden by a different station. The world seems to be falling apart and radio + tv. only magnifies that with its coarse talk + crude songs. Klove offers hope + smiles where "shock jocks" try to take it away.

I really believe klove is a positive influence. I could give you hundreds of examples from my life alone where in these past 6 years of prison, God has used this station to remind me to keep going + never give up. I hope you can reconsider this measure that might threaten the future of klove radio.

Sincerely
